

Technical Specification

AUTOMATIC VERTICAL FORM FILL PACKING MACHINE

Model : VFP-720

Product	Flour
Contour of bag	Pillow bag
Packing Weight	2-3 kg
Packing Material	Any heat seal laminated film
Speed	18 - 20 bags/min (refer to tehcnical specification)
Film width (min-max)	400 mm - 720 mm
Bag length (min-max)	80mm – 700mm
Standard film thickness	35 - 80 micron
Inner film reel diameter	75 mm
Outer film reel diameter	350mm (Maximum)
Bag volume	3000 cc (Maximum)
Air pressure required	constantly 6 bar
Voltage	1 phase / 220 V / 50 Hz
Power	4.0 kw
Machine weight	700 kg
Actual speed	subject to : Product weight, property of product and behavior. Constant feed of product. Type of packing material. Physical influence of surrounding. Operation and maintenance according to working instruction manual.
